

Changes of Latitude Bring Changes of Attitude at EJ

Early in the year and we're moving the stock already.

It happens. You make a move to a bigger and better facility and it gives you the opportunity to provide your customers with an even more superior, upgraded service. This is the story at EJ and their move from Geebung to Brendale north of Brisbane has rolled out smoothly.

It's exciting times for everyone at EJ as the team settles in unpacking boxes and familiarising themselves with new state of the art equipment that's going to provide customers with an even more streamlined delivery of service.

The stockpiles of product have been corralled and orchestrated to more efficiently integrate with our inventory management system, to speed up delivery. You don't need to wait weeks or months as you may with other companies. We

most likely have what you need in stock in our yard. If not, our delivery regimen is second to none. Obviously, customised product will still need a little more time but compare our delivery times with others. We will always do the best.

Adjacent to the sprawling stockyard stacked high with ready-to-haul product and the new offices is a fully equipped AI Fresco Deck where we conduct exclusive Lunch'n'Learn sessions, featuring latest innovations from EJ.

Our new Brendale facility has it all. It's our launching pad for a resolute assault on the market. Before you place an order, place a call to us on 07 3216 5000 or contact your nearest EJ branch. Our attitude means business!
