

# NEXUS™ Structural Chamber Solutions

## Save Time, Save Money!

**Saving vs. Brick:** up to 45% cheaper  
 5 times as quick to assemble

**40 Tonne Loading:** without the need for structural support

### Features

- High quality modular system
- Structural high strength without concrete surround
- Lightweight but strong thermoplastic polypropylene (PP)
- Assembled in 150 mm increments
- Vertical load tested to D400 (40 tonnes)
- Options: 64mm and 114mm diameter preformed duct entry points

### Benefits

- Easy one way fit and construction
- Lightweight system conforms to manual handling guidelines
- Strong twin wall structural design
- Duct entry points easily knocked out with a hammer or cut with a holesaw
- Manufactured from 100% recycled material
- Larger sizes available in 150mm increments

### Product range

| Code              | Clear Opening (mm) | O/all Dim (mm) | Duct Entry Ref | Bracing | Entry Points |
