

SVELTO PLUS

Designed for Domestic Sewer and Municipal applications that require an odour seal

100% watertight, composite access cover and frame Light weight and easy to handle

Features

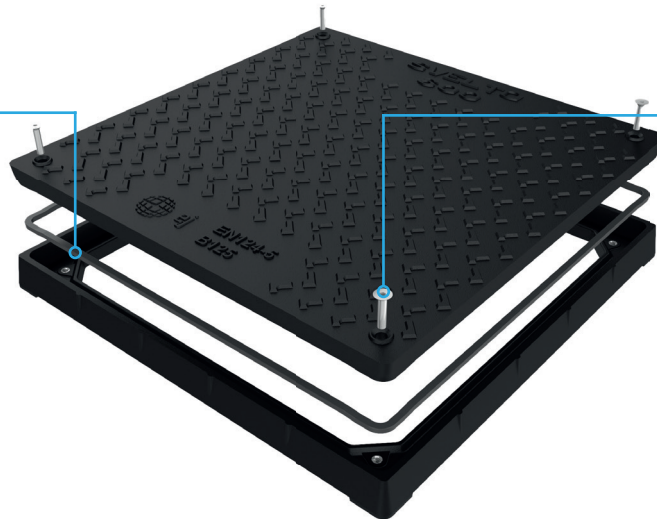

- Cover and frame is EN 124:2015 compliant
- Flat-sided frame, making it suitable for brick-paved areas
- Light weight, easy to handle and install, up to 70% lighter than the iron equivalent
- Rigid and stable assembly due to the fibre reinforced composite frame
- EPDM seal fixed to the frame for water and odour seal*
- Locking by four stainless steel M8 bolts
- Corrosion resistant even in the most aggressive environments
- No resale value to the scrap market
- Non-conductive of stray voltage or heat
- Coarse skid resistant upper surface featuring the trademarked 4L non-slip pattern
- UV resistant protective surface layer

Cover available in any RAL colour

EPDM seal fixed to the frame for water and odour seal

Watertight and secure due to 4 bolt security compressing the EPDM seal

Bespoke locking bolts available to provide increased security on critical networks
